portfolio of works

my name is...

The first section of the book is about the design elements dot, line, and shape executed with vector graphics. In Chapter 1 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

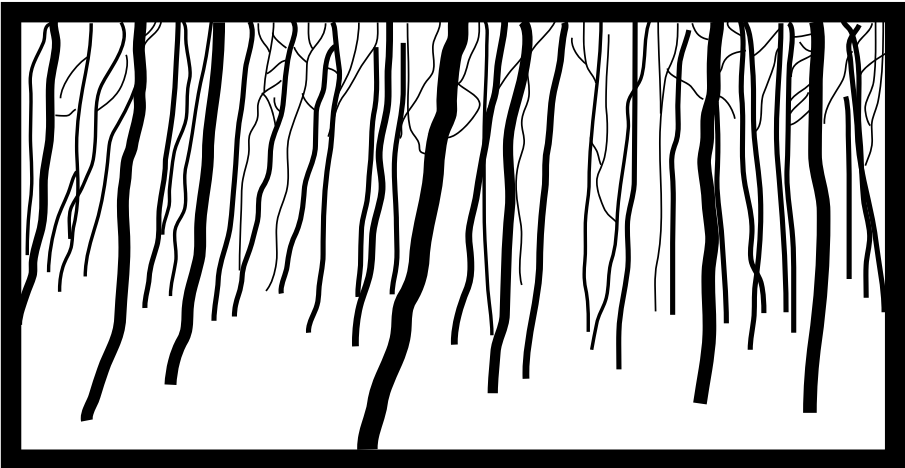

CHAPTER 1

Repeated dots create a pattern. Due to what we learned from Gestalt psychology of perception, the viewer sees a rectangle before noticing 140 circles.

The first section of the book is about the design elements dot, line, and shape executed with vector graphics. In Chapter 2 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

CHAPTER 2

Lines are evident in all images. Here the line is noticed in the positive space (the trees) and in the values created by the atmosphere.

my name is...

The first section of the book is about the design elements dot, line, and shape executed with vector graphics. In Chapter 3 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

CHAPTER 3

Basic shapes: circles, triangles, and squares can be synthesized to create nearly any complex form.

my name is...

The second section of the book is about the photographic elements of organization, value, and color executed with bitmap images. In Chapter 4 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

The second section of the book is about the photographic elements of organization, value, and color executed with bitmap images. In Chapter 5 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

CHAPTER 5

Enter your image description here.

my name is...

The second section of the book is about the photographic elements of organization, value, and color executed with bitmap images. In Chapter 6 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

CHAPTER 6

Enter your image description here.

my name is...

The third section of the book is about digital manipulations by way of hoaxes and repairs, Dada-style collage, and verisimilitude. In Chapter 7 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

CHAPTER 7

Enter your image description here.

my name is...

The third section of the book is about digital manipulations by way of hoaxes and repairs, Dada-style collage, and verisimilitude. In Chapter 9 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy here) using tools such as (you can fill this part in, too).

CHAPTER 9

Enter your image description here.

my name is...

The fourth section of the book is about typographic elements such as type and image, the grid, and continuity. In Chapter 10 I learned how to see (enter your own copy). I also learned how to make (enter your own copy) using tools such as (you can fill this part in, too).

CHAPTER 10

Enter your image description here.

my name is...

The fourth section of the book is about typographic elements such as type and image, the grid, and continuity. In Chapter 11 I learned how to see (enter your own copy here). I also learned how to make (enter your own copy) using tools such as (you can fill this part in, too).
